

EMVEE Axial Jet Fan

Technical Specifications

Fan Type:	Axial Jet Fan
Model:	EMVEE-AJF300
Diameter:	300 mm
Thrust:	Up to 50 N
Air Flow:	Up to 9000 m ³ /h
Motor:	IEC Standard, IP55 Rated
Control:	Two-Speed / VFD Compatible
Material:	Aluminum / Galvanized Steel
Usage:	Car Park Ventilation, Tunnel Air Circulation

Key Features

- High performance and airflow efficiency
- Rugged construction for industrial use
- Low maintenance and easy installation
- Custom configurations available
- Designed for maximum safety and airflow control
